

**MAP #1 – Pre-Construction (OR attach photo or air photo of site preconstruction)**

Use this map to depict:

- ✓ Boundaries of your site
- ✓ Storm drain inlets
- ✓ Topography of the site, existing vegetative cover, and drainage patterns (Use arrows) onto, over, and from the site property
- ✓ Any slope greater than 5%
- ✓ Locations where construction activities and earth-disturbing activities will occur (e.g., limits of disturbance, building footprint)
- ✓ Flowpath of stormwater across site during pre-construction, show where stormwater leaves site

**MAP #2 – SWPPP (OR insert lot map with the following information)**

Use this map to depict:

- ✓ Locations of structures and/or other impervious surfaces (buildings, driveways, parking lots, sidewalks) to be constructed
- ✓ Location of designated areas (with signage in English) for sanitary and solid waste disposal, chemical/hazardous/construction materials storage, stucco/concrete/grout, paint washout, equipment storage and staging areas.
- ✓ Location of stabilized exit and stabilized parking areas
- ✓ Locations of all erosion, sediment, velocity controls (blankets, vegetative strips, mulch, filter socks, wattles, silt fence, berms, depressions)
- ✓ Location of stockpiles and protection, tree and vegetation protection
- ✓ Locations of street intake and beehive intake protection
- ✓ Drainage patterns onto, over, and from the site property after major grading activities
